Version: v1.2
Date: 2024-01-10

Strategic Objectives & Performance Plan 2024

CONFIDENTIAL — EXECUTIVE COMMITTEE ONLY

EXECUTIVE SUMMARY

This document sets out the objectives and commitments of ChemCorp Industries for the period covered. It is intended for the Executive Committee and the Board of Directors. It serves as the reference for operational and strategic steering, KPI monitoring and stakeholder communication. Any modification must be approved by the CEO and the CFO. Document ref.: OBJ-STRAT-2024 — v1.2 dated 2024-01-10.

VISION AND AMBITION 2027

ChemCorp Industries aims to become the leading supplier of bio-based, low environmental impact chemical specialities in Southern and Western Europe, with an 8% market share in the green industrial solvents segment by 2027.

Objective / Item	Target / Value	Comment / Detail
2027 revenue target	€62M (+32% vs 2023)	Based on organic growth of 8% per year and international expansion
2027 EBITDA margin target	22%	Improved product mix towards specialities (margin above 30%)
Bio-based share of revenue	25% by 2027	Against below 1% in 2023 — driven by the BioSolv and EcoSolv ranges
CO2 footprint reduction	-35% in intensity per tonne by 2027	2021 baseline, SBTi commitments under validation
New markets	Active presence in Benelux + Maghreb + Poland	Distribution agreements signed or in progress

COMMERCIAL OBJECTIVES 2024

A year of transition and consolidation: strengthening the existing customer base, commercial launch of the first bio-based ranges, and development of 3 new geographic markets.

Objective / Item	Target / Value	Comment / Detail
2024 revenue	€50M (+6%)	Growth driven by specialities (+15%) and international sales (+20%)
New customers signed	8 new accounts	Priority: Poland, Morocco, Benelux — 3 qualified prospects in the pipeline
Export revenue	28% of revenue (vs 24% in 2023)	Recruitment of a Business Development Manager for Eastern Europe
BioSolv-3 launch	Q3 2024 — 3 pilot customers	Plastex, Solvalor and Nordic Resins confirmed as beta testers
Contract renewal rate	Above 95%	Priority on the 8 accounts worth more than €1M per year

Objective / Item	Target / Value	Comment / Detail
Customer satisfaction (NPS)	Score above 50 (vs 38 in 2023)	Quarterly survey, corrective actions within 30 days

INDUSTRIAL AND R&D OBJECTIVES 2024

Modernisation of production assets, improvement of OEE, and acceleration of the priority R&D programmes (BioSolv, GreenCat, solvent regeneration).

Objective / Item	Target / Value	Comment / Detail
Overall OEE	80% (vs 72% in 2023)	Reinforced preventive maintenance plan + MES digitalisation
First pass yield (FPY)	97% (vs 94.1% in 2023)	Operator training + SPC (statistical process control) in 3 workshops
Production waste reduction	-20% by mass per tonne produced	Lean Manufacturing plan launched in January 2024
Patent filings	2 patents filed	BioSolv-3 (PCT) + GreenCat (French national)
GreenCat progress	50 L pilot demonstrator validated	ANR funding secured provided the application is filed in March 2024
Production cost	3% reduction at constant volume	Raw material negotiation + energy optimisation + automation

CSR & COMPLIANCE OBJECTIVES 2024

ChemCorp is strengthening its ESG commitment with measurable objectives, reported annually under the GRI framework and the ESRS standard (CSRD applicable from 2026).

Objective / Item	Target / Value	Comment / Detail
CDP score	Reach level B (vs C+ in 2023)	Improvement on scopes 1 & 2 + start of scope 3 reporting
Energy consumption	-8% in intensity (kWh per tonne)	ADEME audit completed in Q1 2024, targeted investments
Workplace accidents (LTIFR)	0	STOP programme + systematic near-miss reporting
REACH SVHC compliance	100% of products up to date	SDS updated before June 2024 (new EU regulation)
Employee training	40h per year per employee on average	ChemCorp Academy: 12 modules available as e-learning
GRI sustainability report	Published June 2024	Deloitte engaged for external review

FINANCIAL OBJECTIVES 2024

Control of operating costs in a context of margin pressure (energy, raw materials), while preserving investment capacity for the 2025-2027 capex plan.

Objective / Item	Target / Value	Comment / Detail
2024 EBITDA	€9.2M (margin 18.4%)	Improvement on 2023 (17.8%) thanks to mix and cost optimisation
2024 net income	€4.5M	Excluding exceptional charges linked to the transformation plan

Objective / Item	Target / Value	Comment / Detail
2024 capex	€1.4M	Maintenance and safety take priority; expansion capex deferred to 2025
Working capital (days)	Reduction from 55 to 50 days	Optimisation of customer receivables (DSO) and raw material stock management
Debt/EBITDA ratio	Below 1.2×	Preserving the capacity to raise €6-8M in 2025
Net cash at end 2024	Above €7M	Buffer for M&A opportunities or technology acquisition

OBJ-STRAT-2024 — Risk management & governance

PRINCIPAL RISK ANALYSIS

Identified risk	Likelihood	Impact	Mitigation plan
Raw material price volatility	High	High	6-month fixed-price contracts, 90-day strategic stock on 5 raw materials
Delay to the BioSolv-3 programme	Medium	High	Monthly milestones, contingency budget of €50k
Rising energy costs	High	High	Assessment of a multi-year energy contract with EDF/Engie
Non-compliance with the new REACH SVHC list	Low	Medium	Monthly regulatory watch, proactive SDS updates
Loss of a major account (above €1M)	Low	High	Tailored retention plans, quarterly NPS surveys
Cyber-attack / data loss	Medium	High	IT security audit in Q1 2024, BCP tested annually

GOVERNANCE AND MONITORING ARRANGEMENTS

» Monthly KPI review by the Executive Committee (first Tuesday of each month)
» Quarterly review with the Board of Directors (March, June, September, December)
» Half-year ESG reporting (June and December) — Deloitte
» Annual internal audit (2024 programme: finance, QHSE, IT — Grant Thornton)
» OKR progress reviews by department: weekly (operational) and monthly (strategic)
