Dangerous goods transport classification (ADR 2023)

Product	UN No.	ADR class	Packing group	Tunnel code	Max qty per package
Acetone	UN 1090	3	II	D/E	450 L
Toluene	UN 1294	3	II	D/E	450 L
Methanol	UN 1230	3+6.1	II	D/E	450 L
Hydrochloric acid	UN 1789	8	II	E	30 L
Sulfuric acid	UN 1830	8	II	E	30 L

WARNING: Transport entrusted to an ADR-approved carrier. The loader is responsible for the loading declaration. ADR documents available on request.

General Terms and Conditions of Sale — Extract

Art. 1 — Purpose

These general terms and conditions of sale apply to all sales of chemical products made by ChemCorp Industries S.A. (hereinafter "the Seller") to its business customers. Placing an order implies full and unreserved acceptance of these terms. The customer's own purchasing conditions may not prevail over these terms except with the Seller's express written agreement.

Art. 2 — Prices

Prices are stated in euros excluding VAT, according to the tariff in force on the day the order is placed. They may be revised without notice. Freight, packaging and insurance costs are invoiced in addition unless otherwise stipulated. The applicable VAT rate is the one in force at the invoice date.

Art. 3 — Payment

Unless specific terms have been granted in writing, payment falls due 30 days from the invoice date. Any late payment automatically incurs late-payment interest at three times the statutory rate, together with a fixed recovery indemnity of €40. The Seller reserves the right to suspend deliveries in progress if the credit limit is exceeded.

Art. 4 — Delivery

Delivery lead times are given for guidance only. No delay may give rise to a penalty, damages or cancellation of the order. Risk passes to the buyer as soon as the goods are handed over to the carrier (Incoterms 2020 — EXW unless otherwise agreed). It is the consignee's responsibility to check the condition of the goods on receipt and to raise any reservation within 3 working days.

Art. 5 — Conformity and claims

Delivered products conform to the specifications stated in the purchase order and the product data sheets. Any claim regarding conformity must be submitted in writing within 8 days of receipt. After that period no claim will be admissible. The Seller's liability is limited to the amount of the invoice concerned.

Art. 6 — Dangerous goods regulations

Chemical products are classified, packaged and labelled in accordance with the CLP Regulation (EC) No 1272/2008. Safety data sheets (SDS) compliant with the REACH Regulation are available on request or from the customer portal. The buyer is responsible for using the products in compliance with the local regulations in force, in particular those covering safety, hygiene and the environment.

Art. 7 — Retention of title

The Seller retains ownership of the delivered goods until the price has been paid in full, including principal and incidental charges. In the event of non-payment, the Seller may demand the return of the goods. This clause does not prevent risk from passing on delivery in accordance with Article 4.

Art. 8 — Returns

No goods will be accepted for return without the Seller's prior written agreement. Returned products must be in their original unopened packaging and accompanied by the return note. Custom-made or specially manufactured products may not be returned. Return costs are borne by the customer unless the return results from an error by the Seller.

Art. 9 — Governing law and jurisdiction

These terms are governed by French law. Any dispute concerning their interpretation or performance falls within the exclusive jurisdiction of the Lyon Commercial Court, even in the event of a warranty claim or multiple defendants.

Technical specifications of delivered products

Technical acetone 99.5%

Parameter	Specification	COA result
Purity (GC)	>= 99.5%	99.72%
Water (KF)	<= 0.2%	0.08%
Acidity (as acetic acid)	<= 0.002%	< 0.001%
Evaporation residue	<= 0.001%	< 0.001%
Density at 20°C	0.789–0.792 g/mL	0.790 g/mL
Refractive index	1.356–1.360	1.3588

Distilled toluene

Parameter	Specification	COA result
Purity (GC)	>= 99.5%	99.68%
Benzene	<= 1 ppm	< 0.5 ppm
Water	<= 0.02%	0.009%
Density at 20°C	0.864–0.867 g/mL	0.865 g/mL

Sodium hydroxide pearls

Parameter	Specification	COA result
Purity (NaOH)	>= 99.0%	99.4%
Na2CO3	<= 0.5%	0.2%
NaCl	<= 0.02%	< 0.01%
Fe	<= 5 ppm	2 ppm

Declaration of conformity

ChemCorp Industries S.A. declares that the products delivered under invoice FC-2024-00241 conform to the specifications above, to the REACH Regulation (EC No 1907/2006), the CLP Regulation (EC No 1272/2008), and to the ISO 9001:2015 quality requirements. Analytical results are issued by our in-house laboratory, COFRAC-accredited under No. 1-5421.
